Sachin Kumar

Product Manager @Lowes | Product Management Software, Market Research

New Delhi, Delhi, India

Summary

I build things from zero to “where-has-this-been-all-my-life?” by mixing ruthless discovery, cross-functional mind-melds, and a stubborn bias for shipping.

Product Manager at Lowe’s dedicated to turning complex legal, claims, contracts management and risk workflows into seamless, scalable platforms. From deep discovery through roadmap execution, I partner with cross-functional teams to ship solutions that cut cycle times, surface insights, and move real business metrics.

My superpowers

Strategic OKRs → Roadmaps → Execution (the circle of product life)
Discovery-Driven Development (a.k.a. “ask why until everyone’s uncomfortable”)

Tool belt: Jira, Figma, Confluence, GA, Amplitude, Power BI, and an uncanny ability to find the one missing comma in JSON

Success metrics: Conversion ▲, NPS , Retention #, Workflow Time ▼

Guiding mantra: “If it doesn’t make a user’s Tuesday easier, it’s probably scope creep.”

Outside the Sprint

When the laptop lid shuts, you’ll find me convincing a guitar to cooperate or coaxing a flute into Bollywood melodies.

Experience

Lowe's India

Product Manager

November 2024 - Present (1 year 8 months)

Bengaluru, Karnataka, India

BrightCHAMPS

3 years

Product Manager 1

June 2022 - November 2024 (2 years 6 months)

Bengaluru, Karnataka, India

, , .

-Reduced Service Requests by 70% and operations cost by 50% through a chatbot Implementation that automated class scheduling and cancellation requests on demand.

-Increased Instalment Collections by 5% with Product-Led Payment Options and Payment Nudges by introducing self-service upgrades within the student dashboard.

-Generated #30 Lakhs in Revenue by Organising the Global Online Hackathon, which featured automated enrollment flows and integrated payments, attracting 1,000 participants from 25 countries.

-Enhanced Insights Gathering by 200% with Data Capturing by implementing user-friendly feedback forms at critical user journey points.
